

VISIONAIR BLUE LINE

DUSTFREE UNIVERSAL

With the VisionAir BlueLine DustFree you can tackle visible and invisible (fine) dust, as well as gases and odours. This common indoor air pollution has a negative effect on all attendees, even on people with good health. The filter combination of the DustFree is used in shops, workshops, office spaces, shoemakers and plaster departments. Depending on the content of the room you can opt for a VisionAir Blue Line 1 or a VisionAir Blue Line 2. Both can be mounted to or in the ceiling. The VisionAir Blue Line 1 can also be mounted on the wall and on a movable display.

FILTER PRINCIPLE

The VisionAir Blue Line MicrobeFree contains a unique filter system, which cleans indoor air in three phases.

Phase 1: the **pre filter Blue Line** captures the bigger particles of dust and other polluting items such as hairs and skin flakes.

Phase 2: the **HM Blue Line filter** filters fine dust up to 99,95%. Thanks to the large filter surface, a low air resistance and a high filter capacity are achieved.

The HM Blue Line filter in operation:

Phase 3: finally the **AC2 Blue Line final filter** adsorbs unpleasant odours and gases.

DIMENSIONS VISIONAIR BLUE LINE 1 DUSTFREE

Dimensions L x W x H	630 x 620 x 290 mm
Built-in height	210 mm
Net weight	16,5 kg

DIMENSIONS VISIONAIR BLUE LINE 2 DUSTFREE

Dimensions L x W x H	630 x 1050 x 290 mm
Built-in height	210 mm
Net weight	32,5 kg
